

HARRISON COUNTY, MISSOURI TWO YEARS ENDED DECEMBER 31, 2002

# From The Office Of State Auditor Claire McCaskill

Report No. 2003-95 September 26, 2003 www.auditor.state.mo.us

<u>IMPORTANT</u>: The Missouri State Auditor is required by Missouri law to conduct audits only once every four years in counties, like Harrison County, which do not have a county auditor. However, to assist such counties in meeting federal audit requirements, the State Auditor will also provide a financial and compliance audit of various county operating funds every two years. This voluntary service to Missouri counties can only be provided when state auditing resources are available and it does not interfere with the State Auditor's constitutional responsibility of auditing state government.

Once every four years, the State Auditor's statutory audit will cover additional areas of county operations, as well as the elected county officials, as required by Missouri's Constitution.

This guidit of Harrison County included additional grass of county operations, as well as

This audit of Harrison County included additional areas of county operations, as well as the elected county officials. The following concerns were noted as part of the audit:

- The County Commission has not adequately carried out its fiduciary responsibilities related to the jail building project. A professional appraisal was not obtained prior to purchasing a construction site for the jail project and no county inspection has taken place during construction of the jail to ensure compliance with building codes and building plans and specifications. In addition, an agreement was negotiated with the financial company prior to beginning the bid process. During May 2002, the county entered into an agreement to lease county land to a financial company on which to construct a county jail. A twenty year lease agreement was simultaneously entered into with the financial group for the county to lease the jail and make annual lease payments equal to the amount due to purchase the building at the end of the lease term. The principal amount of the lease is approximately \$1.6 million and will be funded by the county one-half cent law enforcement sales tax.
- The County Commission did not adequately monitor the selection process of various design and construction services, such as architectural services and construction contractor, for the nursing home project. The County Commission responded that they will become more involved in the nursing home building project.

- The Lake Project Fund balance includes sales tax revenue which is required to be used for obligations incurred in the construction of the Harrison County Lake; however, the general obligation bonds have been repaid. The County Commission indicated they are going to ask the voters to approve the use of the monies for maintenance of the lake.
- The county has not taken action on mid-term salary increases given to elected officials in 1997. On May 15, 2001 the Missouri Supreme Court handed down an opinion that challenged the validity of Section 50.333.13, RSMo, which allowed county salary commissions in 1997 to provide mid-term salary increases for associate county commissioners. The Supreme Court held this section of law violated Article VII, Section 13 of the Missouri Constitution, which specifically prohibits an increase in compensation for state, county and municipal officers during the term of office. In the prior audit report, we recommended the county salary commission reevaluate the decision to give mid-term salary increase to all officials; however, no action has been taken. The County Commission has now responded that they will discuss the situation with the Prosecuting Attorney to determine what action to take.
- The County Commission has a history of significantly overestimating amounts budgeted for the Special Road and Bridge Fund. During the last six years, actual disbursements have been only 47 to 75 percent of budgeted expenditures. Additionally, administrative service fee transfers from the Special Road and Bridge Fund to the General Revenue Fund exceeded three percent of actual disbursements for the two years ended December 31, 2002 and 2001, by a total of \$33,882.
- Payments totaling \$50,750 for the purchase of the jail construction site, the building design for the new jail, and repairs to a sheriff's department vehicle were authorized from the Special Road and Bridge Fund. As monies credited to the Special Road and Bridge Fund are restricted for road and bridge purposes, \$50,750 is due to the Special Road and Bridge Fund. The County Commission responded that they have established a schedule to repay the monies to the Special Road and Bridge Fund in ten years or less.
- The schedule of expenditures of federal awards did not accurately report expenditures of Highway Planning and Construction funding. In addition, pass-through entity identifying numbers were not included for most programs.
- Improvements are needed over internal controls in the Sheriff's Office including segregation of duties and perpetual seized property records. In addition, the Sheriff retained fees of \$1,116 for services performed as trustee. This fee is apparently not allowable pursuant to an Attorney General's Opinion and, as a result, this amount is due from the Sheriff to the county.

The audit also includes some matters related to cash management and revenue maximization, computer controls, general fixed asset records and procedures, and county commission minutes.

State Auditor's Reports

## INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS AND SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

To the County Commission and Officeholders of Harrison County, Missouri

We have audited the accompanying Statements of Receipts, Disbursements, and Changes in Cash - Various Funds and Comparative Statement of Receipts, Disbursements, and Changes in Cash - Budget and Actual - Various Funds of Harrison County, Missouri, as of and for the years ended December 31, 2002 and 2001. These financial statements are the responsibility of the county's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1 to the financial statements, these financial statements were prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the receipts, disbursements, and changes in cash of various funds of Harrison County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county as of and for the years ended December 31, 2002 and 2001, on the basis of accounting discussed in Note 1.

In accordance with *Government Auditing Standards*, we also have issued our report dated June 4, 2003, on our consideration of the county's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

The accompanying History, Organization, and Statistical Information is presented for informational purposes. This information was obtained from the management of Harrison County, Missouri, and was not subjected to the auditing procedures applied in the audit of the financial statements referred to above.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the County Commission and Officeholders of Harrison County, Missouri

We have audited the financial statements of various funds of Harrison County, Missouri, as of and for the years ended December 31, 2002 and 2001, and have issued our report thereon dated June 4, 2003. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

## Compliance

As part of obtaining reasonable assurance about whether the financial statements of various funds of Harrison County, Missouri, are free of material misstatement, we performed tests of the county's compliance with certain provisions of laws, regulations, contracts, and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance which are described in the accompanying Management Advisory Report.

## Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements of various funds of Harrison County, Missouri, we considered the county's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition

in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting which are described in the accompanying Management Advisory Report.

This report is intended for the information and use of the management of Harrison County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, pursuant to Section 29.270, RSMo 2000, this report is a matter of public record and its distribution is not limited.

Claire McCaskill State Auditor

Notes to the Financial Statements

## HARRISON COUNTY, MISSOURI NOTES TO THE FINANCIAL STATEMENTS

#### 1. Summary of Significant Accounting Policies

#### A. Reporting Entity and Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of various funds of Harrison County, Missouri, and comparisons of such information with the corresponding budgeted information for various funds of the county. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission, an elected county official, or the Health Center Board. The General Revenue Fund is the county's general operating fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

#### В **Basis of Accounting**

The financial statements are prepared on the cash basis of accounting; accordingly, amounts are recognized when received or disbursed in cash. accounting differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned and expenditures or expenses to be recognized when the related liabilities are incurred.

#### C. **Budgets and Budgetary Practices**

The County Commission and other applicable boards are responsible for the preparation and approval of budgets for various county funds in accordance with Sections 50.525 through 50.745, RSMo 2000, the county budget law. These budgets are adopted on the cash basis of accounting.

Although adoption of a formal budget is required by law, the county did not adopt formal budgets for the following funds:

<u>Fund</u>	Years Ended December 31,			
Law Enforcement Sales Tax Fund	2002			
Circuit Clerk's Interest Fund	2002			
Tax Maintenance Fund	2002			
County Election Services Fund	2001			
Recorder's Technology Fund	2001			

Warrants issued were in excess of budgeted amounts for the following funds:

<u>Fund</u>	Years Ended December 31,			
Assessment Fund	2002			
Crestview Depreciation and				
Replacement Fund	2002			
Crestview Addition Fund	2002			
Police Officer Standards Training Fund	2002			
Health Center Fund	2002			
Prosecuting Attorney Delinquent Tax Fund	2001			

Section 50.740, RSMo 2000, prohibits expenditures in excess of the approved budgets.

### D. Published Financial Statements

Under Sections 50.800 and 50.810, RSMo 2000, the County Commission is responsible for preparing and publishing in a local newspaper a detailed annual financial statement for the county. The financial statement is required to show receipts or revenues, disbursements or expenditures, and beginning and ending balances for each fund.

However, the county's published financial statements did not include the following funds:

<u>Fund</u>	Years Ended December 31,			
Law Library Fund	2002 and 2001			
Circuit Clerk's Interest Fund	2002 and 2001			

## 2. Cash

Section 110.270, RSMo 2000, based on Article IV, Section 15, Missouri Constitution, authorizes counties to place their funds, either outright or by repurchase agreement, in U.S. Treasury and agency obligations. In addition, Section 30.950, RSMo 2000, requires political subdivisions with authority to invest in instruments other than depositary accounts at financial institutions to adopt a written investment policy. Among other things, the policy is to commit a political subdivision to the principles of safety, liquidity, and yield (in that order) when managing public funds and to prohibit purchase of derivatives (either directly or through repurchase agreements), use of leveraging (through either reverse repurchase agreements or other methods), and use of public funds for speculation. The county has not adopted such a policy.

In accordance with Statement No. 3 of the Governmental Accounting Standards Board, Deposits with Financial Institutions, Investments (Including Repurchase Agreements), and

Reverse Repurchase Agreements, disclosures are provided below regarding the risk of potential loss of cash deposits. For the purposes of these disclosures, deposits with financial institutions are demand, time, and savings accounts, including certificates of deposit and negotiable order of withdrawal accounts, in banks, savings institutions, and credit unions.

The county's deposits at December 31, 2002 and 2001, were entirely covered by federal depositary insurance or by collateral securities held by the county's custodial bank in the county's name.

The Health Center Board's deposits at December 31, 2002 and 2001, were entirely covered by federal depositary insurance or by collateral securities pledged by the depositary bank and held in the board's name by a correspondent bank.

## N/A - Not applicable

The accompanying Notes to the Supplementary Schedule are an integral part of this schedul

Notes to the Supplementary Schedule

## HARRISON COUNTY, MISSOURI NOTES TO THE SUPPLEMENTARY SCHEDULE

## 1. <u>Summary of Significant Accounting Policies</u>

## A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards has been prepared to comply with the requirements of OMB Circular A-133. This circular requires a schedule that provides total federal awards expended for each federal program and the Catalog of Federal Domestic Assistance (CFDA) number or other identifying number when the CFDA information is not available.

The schedule includes all federal awards administered by Harrison County, Missouri.

### B. Basis of Presentation

OMB Circular A-133 includes these definitions, which govern the contents of the schedule:

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals....

Federal award means Federal financial assistance and Federal costreimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors.

Accordingly, the schedule includes expenditures of both cash and noncash awards.

## C. Basis of Accounting

Except as noted below, the schedule is presented on the cash basis of accounting, which recognizes amounts only when disbursed in cash.

Amounts for the Donation of Federal Surplus Personal Property (CFDA number 39.003) represent the estimated fair market value of property at the time of receipt.

Amounts for Immunization Grants (CFDA number 93.268) and the Maternal and Child Health Services Block Grant to the States (CFDA number 93.994) include both

cash disbursements and the original acquisition cost of vaccines obtained by the Health Center through the state Department of Health and Senior Services.

## 2. <u>Subrecipients</u>

The county provided no federal awards to subrecipients during the years ended December 31, 2002 and 2001.

FEDERAL AWARDS - SINGLE AUDIT SECTION

State Auditor's Report

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the County Commission and Officeholders of Harrison County, Missouri

## Compliance

We have audited the compliance of Harrison County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 2002 and 2001. The county's major federal program is identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to its major federal program is the responsibility of the county's management. Our responsibility is to express an opinion on the county's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the county's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the county's compliance with those requirements.

In our opinion, Harrison County, Missouri, complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the years ended December 31, 2002 and 2001. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB

Circular A-133 and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 02-1 and 02-2.

### **Internal Control Over Compliance**

The management of Harrison County, Missouri, is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the county's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the county's ability to administer a major federal program in accordance with the applicable requirements of laws, regulations, contracts, and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 02-1 and 02-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with the applicable requirements of laws, regulations, contracts, and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above are material weaknesses.

This report is intended for the information and use of the management of Harrison County, Missouri; federal awarding agencies and pass-through entities; and other applicable government officials. However, pursuant to Section 29.270, RSMo 2000, this report is a matter of public record and its distribution is not limited.

Claire McCaskill State Auditor

#### **Section II - Financial Statement Findings**

This section includes no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

#### **Section III - Federal Award Findings and Questioned Costs**

This section includes the audit findings that Section .510(a) of OMB Circular A-133 requires to be reported for an audit of federal awards.

# 02-1. Schedule of Expenditures of Federal Awards

Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: State Highway and Transportation Commission

Federal CFDA Number: 20.205

Program Title: Highway Planning and Construction

Pass-Through Entity

Identifying Number: BRO-041(20), BRO-041(22), BRO-041(23),

BRO-041(24), & BRO-041(25)

Award Year: 2002 and 2001

Ouestioned Costs: N/A

Section .310(b) of Circular A-133, *Audits of State and Local Governments, and Non-Profit Organizations*, requires the auditee to prepare a schedule of expenditures of federal awards (SEFA) for the period covered by the auditee's financial statements. The county is required to submit the SEFA to the State Auditor's Office as a part of the annual budget.

The county's procedures for reporting federal assistance are not adequate. Although improvement was noted in the preparation of the SEFA, the county did not accurately report expenditures of the BRO program. It appears the BRO expenditures presented on the SEFA included the county's match. In addition, pass-through entity identifying numbers were not included for most programs.

Without an accurate SEFA, federal financial activity may not be audited and reported in accordance with federal audit requirements which could result in future reductions of federal funds.

**WE AGAIN RECOMMEND** the County Commission and the County Clerk ensure all federal award expenditures are properly recorded on the Schedule of Expenditures of Federal Awards. In addition, pass-through entity identifying numbers should be reported when applicable.

#### AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION

The County Commission indicated they will implement the recommendation and establish procedures to ensure the required information is included on the SEFA.

# 02-2. Cash Management

Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: State Highway and Transportation Commission

Federal CFDA Number: 20.205

Program Title: Highway Planning and Construction

Pass-Through Entity

Identifying Number: BRO-041(20), BRO-041(22), BRO-041(23),

BRO-041(24), & BRO-041(25)

Award Year: 2002 and 2001

Questioned Costs: N/A

The county has not established procedures to ensure the minimum time lapses between its receipt of federal project monies and the disbursement of such monies to contractors. For most expenditures, the County Commission makes payments to contractors subsequent to receiving the reimbursement. Of the reimbursements reviewed, we noted four reimbursements totaling \$93,873 which were held from 17 to 38 business days before the related payment was made to the contractor. There is no explanation why these payments were not made timely. The current County Clerk indicated the current procedure is to pay the invoices when the reimbursement from the Missouri Department of Transportation (MoDOT) is received.

Section .300(c) of Circular A-133, *Audits of State and Local Governments, and Non-Profit Organizations*, requires the auditee to, "comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its Federal programs". Section XII of the MoDOT Local Public Agency Manual provides that local agencies must develop cash management procedures to ensure payment is made to the contractor/consultant within two business days of receipt of funds from MoDOT.

<u>WE AGAIN RECOMMEND</u> the County Commission establish procedures to minimize the time between the receipt of federal monies and disbursement of such funds to comply with MoDOT requirements.

# **AUDITEE'S RESPONSE AND PLAN FOR CORRECTIVE ACTION**

The County Commission has established procedures to ensure payments are made before the federal reimbursement is requested.

Follow-Up on Prior Audit Findings for an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

# HARRISON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS FOR AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The prior audit report issued for the two years ended December 31, 2000, included no audit findings that *Government Auditing Standards* requires to be reported for an audit of financial statements.

Summary Schedule of Prior Audit Findings in Accordance With OMB Circular A-133

# HARRISON COUNTY, MISSOURI SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS IN ACCORDANCE WITH OMB CIRCULAR A-133

Section .315 of OMB Circular A-133 requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all findings that are relative to federal awards and included in the prior audit report's Schedule of Findings and Questioned Costs. The summary schedule also must include findings reported in the prior audit's Summary Schedule of Prior Audit Findings, except those listed as corrected, no longer valid, or not warranting further action.

Section .500(e) of OMB Circular A-133 requires the auditor to follow up on these prior audit findings; to perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and to report, as a current year finding, when the auditor concludes that the schedule materially misrepresents the status of any prior findings.

This section represents the Summary Schedule of Prior Audit Findings, which was prepared by the county's management.

#### 00-1. Federal Awards

Federal Grantor: U.S. Department of Transportation

Pass-Through Grantor: State Highway and Transportation Commission

Federal CFDA Number: 20.205

Program Title: Highway Planning and Construction

Pass-Through Entity

Identifying Number: BRO-041(19), BRO-041(20), BRO-041(21), BRO-041(22),

BRO-041(23), BRO-041(24)

Award Year: 2000 AND 1999

Questioned Costs: \$30,864

- A. The county's procedures for tracking federal assistance were not adequate. The county prepared a schedule of expenditures of federal awards (SEFA) for the years ended December 31, 2000 and 1999; however, the schedule contained a number of errors and omissions.
- B. The county had not established cash management procedures to ensure the minimum time elapsed between its receipt of federal project monies and the distribution of such monies to contractors.
- C. There was no documentation that the County Commission considered other engineering firms for project BRO-041(19) as required by state law.

#### Recommendation:

# The County Commission:

- A. And the County Clerk ensure all federal award expenditure amounts are properly recorded on the Schedule of Expenditures of Federal Awards.
- B. Establish procedures to minimize the time between the receipt of federal monies and disbursement of such funds to comply with federal requirements.
- C. Resolve the questioned costs with the grantor agency. In addition, the County Commission should obtain information as required by law when contracting for professional services.

#### Status:

- A. Not implemented. See finding number 02-1.
- B. Not implemented. See finding number 02-2.
- C. Implemented. Correspondence from the Missouri Department of Transportation (MoDOT) indicated the county has developed procedures which should prevent future problems and resolve the findings. The letter also noted that in regards to the questioned costs MoDOT had reason to believe the funds were incurred appropriately based on the county supplying the necessary engineering selection letter. In addition, documentation related to the engineering selection process reviewed during the current audit was adequate.

MANAGEMENT ADVISORY REPORT SECTION

Management Advisory Report -State Auditor's Findings

# HARRISON COUNTY, MISSOURI MANAGEMENT ADVISORY REPORT -STATE AUDITOR'S FINDINGS

We have audited the financial statements of various funds of Harrison County, Missouri, as of and for the years ended December 31, 2002 and 2001, and have issued our report thereon dated June 4, 2003. We also have audited the compliance of Harrison County, Missouri, with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the years ended December 31, 2002 and 2001, and have issued our report thereon dated June 4, 2003.

We also have audited the operations of elected officials with funds other than those presented in the financial statements. As applicable, the objectives of this audit were to:

- 1. Determine the internal controls established over the transactions of the various county officials.
- 2. Review and evaluate certain other management practices for efficiency and effectiveness.
- 3. Review certain management practices and financial information for compliance with applicable legal provisions.

Our audit was conducted in accordance with applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and included such procedures as we considered necessary in the circumstances. In this regard, we reviewed accounting and bank records and other pertinent documents and interviewed various personnel of the county officials.

As part of our audit, we assessed the controls of the various county officials to the extent we determined necessary to evaluate the specific matters described above and not to provide assurance on those controls. With respect to controls, we obtained an understanding of the design of relevant policies and procedures and whether they have been placed in operation and we assessed control risk.

Our audit was limited to the specific matters described in the preceding paragraphs and was based on selective tests and procedures considered appropriate in the circumstances. Had we performed additional procedures, other information might have come to our attention that would have been included in this report.

The accompanying Management Advisory Report presents our findings arising from our audit of the elected county officials referred to above. In addition, this report includes findings other than those, if any, reported in the accompanying Schedule of Findings and Questioned Costs. These findings resulted from our audit of the financial statements of Harrison County but do not meet the criteria for inclusion in the written report on compliance and on internal control over financial reporting that is required for an audit performed in accordance with *Government Auditing Standards*.

## Jail Project

1.

The County Commission did not obtain a professional appraisal prior to purchasing a construction site for the jail project. In addition, the County Commission is not independently monitoring the construction of the jail and appears to have negotiated an agreement with the financial company prior to beginning the bid process.

During May 2002, the County Commission entered into a base lease agreement to lease county land to a financial company on which to construct a county jail. A 20-year lease agreement was simultaneously entered into with the financial company for the county to lease the jail and make annual lease payments equal to the amount due to purchase the building at the end of the lease term. In case of default on the lease, the financial company can reclaim possession of the building for the remainder of the term of the lease. The principal amount of the lease is \$1,656,000. The funding source for the lease is a one-half cent law enforcement sales tax. We noted the following during our review of the jail project:

A. The County Commission did not obtain a professional appraisal to determine the value of three plots of land purchased for the jail site. The County Commission indicated several pieces of property were inspected before deciding to purchase the lots across from the courthouse. However, there was no documentation to support which other properties were considered, costs associated with the properties, or advantages and disadvantages of other properties. Since the three landowners agreed to sell the lots for \$15,000 each and the lots were ideally located across the street from the courthouse, the County Commission considered \$45,000 to be a reasonable price. The County Assessor indicated the most current appraised value of the three properties in the county's records totaled approximately \$6,000, or13 percent of the purchase price; however, the properties had not been appraised since 1998 or earlier.

The disparity between the County Assessor's appraisal and the amount paid supports the importance of an independent appraisal in establishing the market value of the land as a basis for determining the reasonableness of the asking price.

B. The County Commission is not independently monitoring the construction of the jail. There is no professional independent inspection during construction to ensure compliance with building codes and building plans and specifications. The County Commission indicated that while each commissioner periodically tours the facility during construction, they rely on the financial company to ensure the project is completed in accordance with the building plans and specifications. The County Commission stated that since the county will not have title to the property until the lease is paid in full, it is not the County Commission's responsibility to monitor the project. However, because the County Commission fully intends to purchase the

building, it is prudent to ensure the project is adequately supervised and monitored for compliance with building code requirements and building plans and specifications. Ensuring compliance with building codes and plan specifications as the project progresses could prevent future disputes and liability issues.

C. The County Commission negotiated and signed an agreement with the financial company five weeks prior to advertising the request for bids in the local paper. The following is a sequence of events leading up to the bid award:

Date	Event
April 10, 2002	County Commission minutes documented a meeting with the construction company and the financial company to sign an agreement for financing and begin the final design. The agreement was dated March 10, 2002, and was signed by all parties.
May 15, 22, & 29, 2002	Request for bids for the "design, development, construction and financing of a public safety facility" was advertised in the local paper.
May 29, 2002	Opened a sole bid for the jail project from the financial company.
	The contract was awarded to the financial company and an agreement dated May 29, 2002, was signed by all parties.
	In a letter dated May 29, 2002, the Prosecuting Attorney indicated he had examined the duly executed originals of the lease and option agreement and base lease agreement dated March 10, 2002.

While the request for proposal (RFP) was advertised in the local paper twice during the two weeks prior to the bid opening and on the day of the bid opening, it appears the county had already negotiated an agreement with the financing group to construct and finance a jail. Negotiation and execution of contracts prior to the competitive bid process gives an unfair advantage to the entity to whom the bid was awarded and circumvents the bid requirements.

Bidding procedures for major purchases provide a framework for economical management of county resources and help assure the county that it receives fair value by contracting with the lowest and best bidder. In addition, competitive bidding ensures all interested parties are given an equal opportunity to participate in county business. Section 50.660, RSMo 2000, requires all contracts and purchases be awarded to the lowest and best bidder after due opportunity for competition.

The County Commission has a fiduciary responsibility to ensure public funds are properly expended, complete records are maintained, and that significant county projects are carefully supervised.

## **WE RECOMMEND** the County Commission:

- A. Obtain a professional appraisal prior to purchasing land.
- B. Ensure the construction is independently monitored, inspected, and supervised for the remainder of the jail project.
- C. Ensure building projects are bid in accordance with state law.

#### **AUDITEE'S RESPONSE**

- A. The County Commission indicated they normally get a professional appraisal for purchases of land. They will implement the recommendation for future purchases of land.
- B. The County Commission indicated they have requested building plans from the finance company to no avail. However, they are monitoring the project and will continue to monitor the project as best they can. For future projects, the County Commission indicated they will ensure the recommendation is implemented.
- *C.* The County Commission agrees with the recommendation.

# 2. Crestview Nursing Home Project

The County Commission did not adequately monitor the selection process of various design and construction services for the nursing home project.

Certificates of Participation (COPs) totaling \$3,870,000 were issued by a trustee bank (trustee) on behalf of the county and the proceeds of those certificates were used to construct an addition to the existing nursing home and to refund the outstanding Series 1989 and Series 1996 revenue bonds.

The County Commission entered into a lease purchase agreement with the trustee on March 1, 2002. The terms of the agreement require the county to concurrently convey a leasehold interest in the project site (Crestview Nursing Home) to the trustee and for the trustee to lease the Crestview Nursing Home back to the county with lease purchase payments equal to the amount due to retire the indebtedness. The county leases the property to a not for profit corporation (NFP), which operates the nursing home.

The lease payments are payable solely from a pledge of the revenues derived from the operation of the nursing home. The NFP submits the principal and interest payments to the trustee who in turn makes the payment to the owner of the certificates. Each month, the trustee sends a statement of activity to the county showing the activity in the account.

The County Commission did not adequately monitor the selection process for the architectural services, construction manager, and construction contractor for the nursing home project. The nursing home administrator indicated proposals were solicited for various aspects of the nursing home construction project. The County Commission indicated they did not review the proposals for the architectural services, general contractor, or construction manager to ensure proper procedures were followed.

The County Commission has a fiduciary responsibility to ensure public assets are properly safeguarded, complete records are maintained, and that significant county projects are carefully supervised.

**WE RECOMMEND** the County Commission adequately monitor county building projects.

## **AUDITEE'S REPONSE**

The County Commission indicated they will implement the recommendation and become more involved in the Crestview Nursing Home building project.

# 3. Lake Project Fund Balance

The Lake Project Fund balance includes sales tax revenue which is required to be used for obligations incurred in the construction of the Harrison County Lake; however, the general obligation bonds have been paid.

In April 1988, the county passed a one-fourth cent sales tax pursuant to Section 67.547, RSMo. The ballot states the proceeds of the tax "shall be specifically used to pay all local obligations incurred in the construction of the Harrison County Lake, which tax shall terminate once the debt incurred by Harrison County for the funding of the Harrison County Lake is retired."

The debt incurred for the lake project consisted of \$1.2 million in general obligation bonds which were scheduled to mature in 2009. The bonds were paid off on July 12, 2000, nine

years prior to maturity. In September 2000, the County Clerk notified the Department of Revenue (DOR) to repeal the sales tax effective January 1, 2001.

Although the County redeemed the bonds early and notified the DOR to repeal the sales tax, a \$308,664 balance remained in the Lake Project Fund as of December 31, 2002. Since the ballot language specifically stated that the sales tax is to be used for obligations incurred in the construction of the lake and the general obligation bonds have been paid off, the County Commission should consult legal counsel regarding the proper disposition of the sales tax monies that remain in the Lake Project Fund.

<u>WE RECOMMEND</u> the County Commission consult legal counsel to determine the proper disposition of the sales tax revenue remaining in the Lake Project Fund.

#### **AUDITTE'S RESPONSE**

4.

The County Commission has discussed the situation with the Prosecuting Attorney and plans to ask the voters, through a ballot issue, to authorize the county to use the balance in the account for maintenance of the lake.

## **County Officials' Compensation**

The county has not taken action on mid-term salary increases given to elected officials in 1997.

On May 15, 2001, the Missouri Supreme Court handed down an opinion that challenged the validity of Section 50.333.13, RSMo. This section of law allowed county salary commissions in 1997 to provide mid-term salary increases for associate county commissioners elected in 1996. The Supreme Court held that this section of law violated Article VII, Section 13 of the Missouri Constitution, which specifically prohibits an increase in compensation for state, county and municipal officers during the term of office. On June 5, 2001, the State Auditor notified all third class counties of the Supreme Court decision and recommended that each county document its review of the impact of the opinion, as well as plans to seek repayment.

As noted in the prior report, the 1997 salary commission voted to give elected officials a salary increase mid-term. The County Commission indicated they would ask the county's legal counsel to review this matter and discuss it at the 2001 salary commission meeting. However, a salary commission meeting was not held in 2001 and there is no documentation this situation was reviewed.

In light of the Supreme Court ruling, raises given to officials within their term of office should be re-evaluated for propriety. Any legal opinions or discussions by the county salary commission regarding this situation should be documented.

<u>WE RECOMMEND</u> the County Commission review the impact of this court decision and develop a plan for obtaining repayment of any salary overpayments.

## **AUDITEE'S RESPONSE**

The County Commission indicated they will discuss the recommendation with the Prosecuting Attorney to determine what action to take.

# 5. Budgetary Practices and Published Financial Statements

The County Commission overestimated the budgeted amounts for the Special Road and Bridge Fund. In addition, the County Clerk does not ensure the township road boards prepare and publish financial statements.

A. As also noted in the prior three audit reports, the County Commission significantly overestimated the amounts budgeted for the Special Road and Bridge Fund as follows:

	Disbursements				
Year Ended			Budget over		
December 31,	Budget	Actual	Actual		
2002	\$ 2,445,760	1,844,215	601,545		
2001	3,025,656	1,433,722	1,591,934		
2000	2,618,040	1,550,439	1,067,601		
1999	2,586,580	1,688,095	898,485		
1998	2,483,801	1,170,358	1,313,443		
1997	2,346,943	1,339,831	1,007,112		

During the last six years, actual disbursements have been only 47 to 75 percent of budgeted expenditures. The County Commission indicated that they have tried to budget for unanticipated emergencies. As evidenced by the amounts presented above, the County Commission does not adequately review historical cost data when preparing the budget. The practice of overestimating disbursements results in an unreasonable estimated ending fund balance and reduces the use of the budget as a management tool and as a control over disbursements.

For the budget documents to be of maximum assistance to the County Commission and to adequately inform county residents of the county's operations and current financial position, the budgets should accurately reflect resources on hand, reasonable estimates of receipts and disbursements, and anticipated ending cash balances.

B. Actual disbursements exceeded the budgeted amounts in various funds as follows:

	Year Ended December 31,		
Fund	<u>2002</u>	<u>2001</u>	
Assessment Fund	1,494	N/A	
Prosecuting Attorney Delinquent Tax Fund	N/A	153	
Crestview Depreciation and			
Replacement Fund	204,975	N/A	
Crestview Addition Fund	30,451	N/A	
Peace Officer Standards Training Fund	334	N/A	

This situation occurred in the Crestview Nursing Home Fund and Crestview Addition Fund because of refinancing of bonds which resulted in transactions that were not budgeted. The Associate Commissioners indicated the nursing home board presented the refinancing proposal to the County Commission subsequent to approval of the 2002 budget. The County Commission did not think about amending the budget for these transactions.

It was ruled in State Ex. Rel. Strong v. Cribb, 364 Mo.1122, 273 SW2d 246 (1954), that county officials are required to comply strictly with the county budget laws. If there are valid reasons which necessitate excess expenditures, budget amendments should be made following the same process by which the annual budget is approved, including holding public hearings and filing the amended budget with the State Auditor's Office. In addition, Section 50.622, RSMo 2000, provides that counties may amend the annual budget during any year in which the county receives additional funds which could not be estimated when the budget was adopted and that the county shall follow the same procedures required for adoption of the annual budget to amend the budget.

C. The County Clerk does not ensure township road boards financial statements are prepared and published as required by state law. Section 231.290, RSMo 2000, requires the County Clerk to prepare a form to be utilized by the townships to provide a detailed account of their financial activity, along with an inventory of the township's property, which should be published in a local newspaper and filed with the County Clerk.

#### WE RECOMMEND:

- A. The County Commission ensure budgeted expenditures are reasonable so that a more realistic estimate of the Special Road and Bridge Fund's financial condition is presented and to increase the budget's effectiveness as a management tool.
- B. The County Commission ensure disbursements are not authorized in excess of budgeted expenditures. In addition, if valid reasons necessitate excess expenditures, the budget should be formally amended following the same process by which the annual budget is approved, including holding public hearings and filing the

amendment with the State Auditor's Office.

C. The County Clerk should ensure all townships publish financial statements in a local paper in accordance with state law.

#### **AUDITEE'S RESPONSE**

- A. The County Commission indicated they will try to do a better job of budgeting Special Road and Bridge Fund expenditures.
- B. The County Commission indicated they generally do amend budgets when necessary, but due to unusual circumstances with the Crestview Nursing Home bond refinancing, they failed to amend the budget. The County Commission will implement the recommendation.
- C. The County Clerk indicated all townships except six published financial statements for 2002. The townships will be required to publish financial statements for 2003 and file them with the county prior to receiving any county aid.

# 6. Interfund Loans and Transfers

The County Commission authorized unallowable expenditures from the Special Road and Bridge Fund. In addition, administrative services fee transfers from the Special Road and Bridge Fund to the General Revenue Fund were excessive.

A. The County Commission authorized payment of jail and law enforcement expenditures totaling \$50,750 from the Special Road and Bridge Fund. These expenditures include the purchase of three lots totaling of \$45,000 to be used for the jail construction site, \$5,000 for the building design for the new jail, and \$750 for repairs to a Sheriff's department vehicle. The County Commission indicated the expenditures for the design of the new jail and the lots for the jail were a loan from the Special Road and Bridge Fund to the Law Enforcement Sales Tax Fund. These expenditures were made in February and June 2002; however, the 2003 budget did not appropriate monies for repayment of the loan and as of June 2003, the monies have not been reimbursed to the Special Road and Bridge Fund.

The monies credited to the Special Road and Bridge Fund are restricted for road and bridge purposes. As a result, \$50,750 is due to the Special Road and Bridge Fund from the Law Enforcement Sales Tax Fund.

В. Administrative service fee transfers from the Special Road and Bridge Fund to the General Revenue Fund were excessive. During the years ended December 31, 2002 and 2001, the county made administrative service fee transfers of \$65,000 and \$175,656, respectively, from the Special Road and Bridge Fund to the General Revenue Fund. The transfer made in 2001 was to recoup administrative service fees which had been budgeted but had not been transferred for part of 1998, 1999 and 2000, as well as the administrative service fee which pertained to 2001. The amount recouped for 1998 through 2000 was calculated based upon three percent of actual expenditures from the Special Road and Bridge Fund. There was no documentation to support how the administrative service fee transfers pertaining to 2002 and 2001 were calculated. Although administrative service fee transfers were less than three percent of Special Road and Bridge Fund budgeted disbursements, the transfers exceeded three percent of actual disbursements for the two years ended December 31, 2002 and 2001, by a total of \$33,882. This situation resulted from unreasonable budget estimates for the Special Road and Bridge Fund (See MAR No. 5).

Section 50.515, RSMo 2000, allows the county to impose an administrative service fee on the Special Road and Bridge Fund. The administrative service fee shall be imposed only to generate reimbursement sufficient to recoup actual disbursements made from the General Revenue Fund for related administrative services to the funds, and shall not exceed three percent of the Special Road and Bridge Fund budget.

## **WE RECOMMEND** the County Commission:

- A. Transfer \$50,750 to the Special Road and Bridge Fund from the Law Enforcement Sales Tax Fund. In addition, interfund loans should be reflected as such on the budget document.
- B. Base administrative transfers on actual or reasonable budgeted expenditures of the Special Road and Bridge Fund and retain documentation of the transfer calculations. In addition, a transfer of \$33,882 should be made from the General Revenue Fund to the Special Road and Bridge Fund. Transfers should be budgeted and made in a timely manner.

#### **AUDITEE'S RESPONSE**

- A. The County Commission has established a schedule to repay the monies to the Special Road and Bridge Fund from the Law Enforcement Sales Tax Fund in ten years or less.
- B. The County Commission indicated they will take a serious look at the situation next year and will make transfers in a more timely manner.

#### Revenue Maximization

The county has not established procedures to monitor reimbursement requests of the Bridge Replacement Offset (BRO) program, and ensure timely receipt of funds. During our review of the Bridge Replacement Offset (BRO) program, we noted the following:

- A reimbursement request to MoDOT for \$6,319 dated June 2001 was not received by the county until April 2003. Another reimbursement request for \$1,854 dated June 2001 has not been received as of July 1, 2003. A similar situation was noted in the audit report for the two years ended December 31, 2000.
- A reimbursement request for \$14,750 for expenses incurred by the county road and bridge department during 2001 and 2002, including hours worked and materials used, was not submitted until April 4, 2003. In addition, as of July 18, 2003, the county still had not submitted a reimbursement request for \$4,064 of these costs.
- In 2001, the county incurred expenses totaling \$1,189 for a bridge project which were not included on a reimbursement request.

The County Commission followed up on the above items only after we brought them to their attention. Adequate monitoring procedures are necessary to ensure the county maximizes its revenues and ensure the federal reimbursement requests for federal funds are accurate and complete.

<u>WE RECOMMEND</u> the County Commission establish procedures to monitor receipt of reimbursement requests and to ensure the reimbursement requests for federal funds are accurate and complete.

## <u>AUDITEE'S RESPONSE</u>

7.

The County Clerk currently has a procedure in place to monitor reimbursement of expenditures.

# 8. Computer Controls

The county's computer system's internal controls are in need of improvement. The county has a computer system which is utilized by the County Clerk, the County Assessor and the County Collector. During our review of the controls over the system, we noted the following:

- A. Passwords are not changed on a periodic basis to ensure confidentiality. As a result, there is less assurance that passwords are effectively limiting access to the property tax data files and programs to only those individuals who need access for their job responsibilities. Passwords should be unique, changed periodically to reduce the possibility of unauthorized users, and utilized to restrict individuals' access to only those data files and programs they need to accomplish their jobs.
- B. No security system is in place on the property tax and financial programs to detect and stop incorrect log-on attempts after a certain number of tries. An unauthorized individual could try an infinite number of times to log on the system, and if successful, have unrestricted access to program and data files. To help protect computer files, a security system should be implemented to stop incorrect log-on attempts after a certain number of tries. Such a system should produce a log of the incorrect attempts, which should be reviewed periodically by an authorized official.
- C. The County Assessor backs up the files for the financial data, the property tax system, the 911 system, and the courts; however, the backup disks are not stored at an off-site location. Backups of computer information provide a means of recreating destroyed data. Failure to store the computer backup disks off-site results in the backups being susceptible to the same damage as the original data on the computer. Backup disks should be maintained and stored off-site to provide increased assurance that county data can be recreated.
- D. The county does not have a formal emergency contingency plan for the computer system, and has not formally negotiated arrangements for backup facilities in the event of a disaster. In addition, some of the areas housing computer hardware and software are not equipped with fire detection or smoke detection systems.

Contingency plans should include plans for a variety of situations, such as short-and long-term plans for backup hardware, software, facilities, personnel, and power usage. Involvement of users in contingency planning is important since users will likely be responsible for maintaining at least a portion of the backup under various contingencies. The major benefit of a thorough disaster recovery plan is the ability of the county to recover rapidly from disaster or extraordinary situations that might cause considerable loss or disruption to the county. Because of the county's degree of reliance on the data processing, the need for contingency planning is evident. In addition, fire detectors should be installed to ensure personnel respond appropriately in the case of a fire.

#### WE RECOMMEND the County Commission:

A. Ensure unique passwords are assigned to each employee and these passwords are periodically changed and remain confidential.

- B. Establish a security system to stop and report incorrect log-on attempts after a certain number of tries.
- C. Ensure backup disks are prepared and stored in a secure, off-site location.
- D. Develop a formal contingency plan for the county's computer systems and equip areas that house computer hardware and software with fire detectors or smoke detectors.

## **AUDITEE'S RESPONSE**

- A&B. The County Commission is looking at a new system with the capability to change passwords and record and report log-on attempts.
- C. The County Commission indicated backup disks are currently being stored in an offsite location.
- *D. The County Commission indicated they will look into this recommendation.*

## 9. General Fixed Asset Records and Procedures

The county has not maintained or updated the master list of fixed assets since 1996, nor has the county conducted a complete physical inventory since that time. In addition, property tags are not affixed to purchased assets. The County Commission or its designee is responsible for maintaining a complete detailed record of county property. In addition, each county official or their designee is responsible for performing periodic inventories and inspections.

Adequate general fixed asset records are necessary to meet statutory requirements; secure better internal control over, and to safeguard county assets; and provide a basis for determining proper insurance coverage required on county property.

Section 49.093, RSMo 2000, provides the county officer of each county department shall annually inspect and inventory county property used by that department with an individual value of \$250 or more and any property with an aggregate original value of \$1,000 or more. All remaining property not inventoried by a particular department shall be inventoried by the county clerk. In addition, property control tags should be affixed to all fixed asset items to help improve accountability and to ensure that assets are properly identified as belonging to the county.

Previous reports have noted concerns with the general fixed asset records and the County Commission responded that they would make an effort to comply with the recommendation; however, improvements have not been noted.

WE RECOMMEND the County Commission establish a written policy related to handling and accounting for general fixed assets. In addition to providing guidance on accounting and record keeping, the policy could include necessary definitions, address important dates, discuss procedures for the handling of asset disposition, and any other concerns associated with county property. In addition, all general fixed assets should be tagged or otherwise identified as county-owned property.

#### **AUDITEE'S RESPONSE**

The County Commission indicated a physical inventory has been performed by all county offices and will be performed annually. A fixed asset listing has been prepared and will be updated. Property tags have been added to most fixed assets. The County Commission agrees with the recommendation.

# 10. Commission Meetings and Records

Improvements are needed in the county commission minutes. Formal written minutes are not always prepared for closed meetings. In addition, minutes do not always include sufficient detail and are not signed by the Presiding Commissioner.

- A. Formal written minutes are not prepared for closed county commission meetings. The former County Clerk maintained brief hand written notes of some of the closed meetings. Formal written minutes for closed meetings result in a better record of county transactions, proceedings and decisions. Although minutes for closed meetings are not specifically required by Chapter 610, RSMo (the Sunshine Law), the county should document discussions during closed session to demonstrate, if necessary, the discussions were limited to the topics announced for the closed session.
- B. The county commission minutes do not always include sufficient detail of matters discussed and actions taken at the county commission meetings. During our review of expenditures, we noted the review and approval of bids for several items purchased (a truck and an install repeater) were not adequately documented in the County Commission minutes. In addition, discussions relating to the jail project and financing agreement, lake project and bond payoff, and the Crestview Nursing Home financing decisions were not adequately documented in the minutes.

Complete and accurate minutes provide an official record of board actions and decisions. In addition, Section 51.120, RSMo 2000 requires the County Clerk to keep an accurate record of the orders, rules, and proceedings of the County Commission.

C. The Presiding Commissioner does not sign the county commission meeting minutes. The minutes should be prepared and signed by the County Clerk, approved by the County Commission, and signed by the Presiding County Commissioner to provide an attestation that the minutes are a correct record of the matters discussed and action taken during the county commission meetings.

## **WE RECOMMEND** the County Commission ensure:

- A. Minutes are prepared for all closed meetings.
- B. All significant discussions and actions taken are adequately documented in the minutes.
- C. Minutes are approved and signed.

#### **AUDITEE'S RESPONSE**

- A. The new County Clerk has begun maintaining minutes of closed meetings.
- *B&C.* The County Commission agrees with the recommendations.

## 11. Sheriff's Controls and Procedures

Some improvement is needed over internal controls in the Sheriff's Office. In addition, the Sheriff improperly retained fees received for services performed as a successor trustee and a perpetual inventory record of seized property is not maintained.

The Sheriff's office collected civil and criminal process fees, gun permit fees, cash bonds, phone commission fees, and copy fees during the years ended December 31, 2002 and 2001, totaling approximately \$182,000 and \$146,000, respectively. In addition, the Sheriff is the custodian of seized property and performs certain sales. Our review of the Sheriff's accounting controls and procedures noted the following:

A. The duties of receiving, recording, and depositing are not adequately segregated. Currently, the Sheriff's secretary is responsible for receiving the monies, recording receipts, preparing the deposits, and writing checks.

To safeguard against possible loss or misuse of funds, internal controls should provide reasonable assurance that all transactions are accounted for properly and assets are adequately safeguarded. Proper segregation of duties helps to provide this assurance and could be achieved by segregating the functions of receiving and disbursing monies from maintaining accounting records. If proper segregation of duties cannot be achieved, at a minimum, there should be a documented independent supervisory review.

- B. The method of payment is not always indicated on the receipt slips. To ensure receipts are handled properly, the method of payment should be indicated on each receipt slip and the composition (cash and checks) should be reconciled to the composition of bank deposits.
- C. The Sheriff does not file a monthly report of fees with the county commission. Section 50.370, RSMo 2000, requires county officials to file a report with the county commission showing fees charged and collected.
- D. The Sheriff retained fees totaling \$1,116 for services performed as trustee to execute a deed of trust in September 2002. The Sheriff indicated he had received legal advice from the Prosecuting Attorney that he was not required to turn the fees over to the County Treasurer. However, the Sheriff nor the Prosecuting Attorney could provide documentation or criteria to support the decision to retain fees from trustee sales.

Attorney General's Opinion No. 304, 1970 to Holman concluded that a Sheriff is not entitled to retain a fee if he is appointed trustee to execute a deed of trust in his official capacity. As a result \$1,116 is due from the Sheriff to the county.

E. A perpetual inventory record of seized property is not maintained. The most current listing was prepared as of January 1, 2001, when the Sheriff took office. However, it has not been updated since that time. When an item is received, it is tagged with suspect's name and description of the item. However, the item is not recorded on the inventory list and a periodic inventory of the property on hand is not conducted. There are several guns for which the case number or the owner are not identified.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of theft or misuse of the items. A perpetual inventory control record should be maintained and periodic physical inventories should be performed and the results compared to the inventory records to ensure that seized property is accounted for properly.

#### WE RECOMMEND the Sheriff:

- A. Adequately segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- B. Record the method of payment on receipt slips and reconcile the composition of receipts to the composition of bank deposits.
- C. Ensure a monthly report of fees is filed with the county commission in accordance with state law.

- D. Ensure fees received for services performed as a trustee in a deed of trust sale are turned over to the County Treasurer. In addition, the Sheriff should turn over \$1,116 to the county.
- E. Prepare and maintain a complete perpetual inventory record of seized property. Periodic inventories of seized property should be performed. In addition, disposition of seized property should be made on a timely basis.

## **AUDITEE'S RESPONSE**

- *A-C.* The Sheriff indicated the recommendations have been implemented.
- D. The Sheriff indicated the matter has been taken under advisement in order to seek further legal advice.
- E. The Sheriff indicated the recommendation will be implemented when the Sheriff's department moves into the new facility.

Follow-Up on Prior Audit Findings

# HARRISON COUNTY, MISSOURI FOLLOW-UP ON PRIOR AUDIT FINDINGS

In accordance with *Government Auditing Standards*, this section reports the auditor's follow-up on action taken by Harrison County, Missouri, on findings in the Management Advisory Report (MAR) of the audit report issued for the two years ended December 31, 1998.

The prior recommendations which have not been implemented, but are considered significant, are repeated in the current MAR. Although the remaining unimplemented recommendations are not repeated, the county should consider implementing those recommendations.

## 1. <u>Budgets and Published Financial Statements</u>

- A. Formal budgets were not prepared for various county funds for the years ended December 31, 1998 and 1997.
- B. Budgeted expenditures in the 911 Fund exceeded budgeted revenues plus beginning balances resulting in a budgeted deficit of \$32,601 for the year ended December 31, 1997.
- C. Warrants were issued in excess of approved budgeted expenditures for various funds during the two years ended December 31, 1998.
- D. The approved budget documents did not adequately project the anticipated disbursements of the Special Road and Bridge Fund for the two years ended December 31, 1998.
- E. The annual published financial statements of the county did not include the financial activity of some county funds.

#### Recommendation:

#### The County Commission:

- A. Ensure budgets are prepared or obtained for all county funds.
- B. Refrain from approving budgeted expenditures in excess of available monies.
- C. And the Health Center Board not authorize warrants in excess of budgeted expenditures.
- D. Estimate disbursements more reasonably.
- E. And the Health Center Board ensure financial information for all county funds is properly reported in the annual published financial statements.

#### Status:

- A. Partially implemented. Budgets were prepared for most funds. The funds for which budgets were not prepared were for new funds (Tax Maintenance Fund for 2002 and County Election Services Fund and Recorder's Technology Fund for 2001) or funds handled by another county official (Circuit Clerk's Interest Fund). Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Implemented.
- C&D. Not implemented. See MAR finding number 5.
- E. Partially implemented. Some information was reported in the published financial statements for all funds except the Law Library Fund and Circuit Clerk Fund. Although not repeated in the current MAR, our recommendation remains as stated above.

### 2. <u>Expenditures</u>

- A. Some bids were not advertised by the county.
- B. The County Commission approved payments to several vendors, including payments for gravel delivered to townships, without requiring acknowledgment of receipt of the goods or services.

## Recommendation:

The County Commission:

- A. Ensure that bids are advertised in accordance with statutes.
- B. Require acknowledgment of receipt of goods and/or services prior to payment.

#### Status:

- A. Not implemented. Although not all bids were advertised; bids were solicited for all but one item reviewed which required bids. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Partially implemented. The only expenditures reviewed that did not include an acknowledgement of goods or services were invoices for gravel delivered to the townships. The County Commission notifies the quarry how many tons of gravel to deliver to each township. The County Commission indicated they rely on township officials to notify them if the gravel is not delivered. However, there is no direct acknowledgement that gravel is delivered. Although not repeated in the current MAR, our recommendation remains as stated above.

#### 3. Property Tax Books and Controls

- A. The County Clerk did not maintain an account book with the Ex Officio County Collector (EOC).
- B. Court orders for additions and abatements were prepared by the County Clerk and approved by the County Commission once a year.

#### Recommendation:

- A. The County Clerk establish and maintain an account book of the EOC's transactions and use the account book to verify the EOC's annual settlements.
- B. The County Commission review and approve all additions and abatements on a more timely basis.

#### Status:

- A. Not implemented. The new County Clerk indicated she will begin maintaining an account book for the 2003 tax year. Although not repeated in the current MAR, our recommendation remains as stated above.
- B. Not implemented. Although the County Commission approves additions and abatements once a year, the County Assessor prepares change orders. A copy of the change orders is provided to the County Clerk. Although not repeated in the current MAR, our recommendation remains as stated above.

#### 4. Circuit Clerk and Ex Officio Recorder of Deeds Accounting Procedures

- A. Numerous sets of manual receipt slips were in use simultaneously. The following concerns were noted during a review of the receipts:
  - 1) The manual receipts issued for traffic monies received were not prenumbered.
  - 2) The manual receipts issued for installment payments were not always issued in order.
  - The mode of payment was not always indicated on receipt slips issued and procedures were not established to reconcile amounts received to deposits.
- B. Accounting duties were not adequately segregated.

- C. Fees were not always charged in accordance with statute. During the two years ended December 31, 1998, unauthorized Prosecuting Attorney and Sheriff's fees totaling \$105,940 were collected and deposited into the General Revenue Fund.
- D. The Circuit Clerk had not determined the interest earned on the child support account attributable to the IV-D Program since the account became interest-bearing.
- E. Various financial records could not be located.
- F. Some expenditures from the Circuit Clerk's Interest Fund were not advertised for bid.

## Recommendation:

The Circuit Clerk and Ex Officio Recorder of Deeds:

- A.1. Ensure that prenumbered receipt slips are issued for all monies received.
  - 2. Issue receipt slips in numerical order and ensure that procedures are established to account for the numerical sequence of all receipt slips.
  - 3. Ensure that the mode of payment is recorded on all receipt slips and that the composition of the receipt slips is reconciled to the composition of the bank deposits. Procedures should also be established to ensure that all receipts are promptly posted to a corresponding case file.
- B. Segregate accounting duties to the extent possible or ensure periodic supervisory reviews are performed and documented.
- C. Review this situation with the Circuit Judge and ensure that any fees collected in error are correctly disbursed.
- D. Determine and disburse the portion of IV-D interest due to the state on a monthly basis.
- E. Exercise greater care in the retention of records.
- F. Advertise bids in accordance with state statutes.

#### Status:

A, E

&F. Implemented.

- B. Partially implemented. Bank reconciliations are performed by someone other than the individual collecting monies except for Probate case fees. In addition, the Circuit Clerk indicated she reviews the bank reconciliations; however, the review is not documented. Although not repeated in the current MAR, our recommendation remains as stated above.
- C. Implemented. During the year ended December 31, 2001, \$105,940 was distributed to the school districts from the General Revenue Fund.
- D, The Circuit Clerk turned over interest totaling \$1,432 to the state on December 28, 2000. The county no longer collects IV-D monies, and, as a result, this recommendation is no longer applicable.

#### 5. Sheriff's Records and Procedures

- A.1. The Sheriff's Office did not maintain a complete centralized listing of all seized property in the Sheriff's department's custody.
  - 2. The Sheriff stored several old guns that did not have any tags identifying the case number or the name of the original owner.
- B.1. The Sheriff did not maintain a log of amounts billed to or collected from various entities for boarding prisoners. In addition, an independent reconciliation of the Sheriff's billing records and payments received by the County Treasurer was not performed.
  - 2. There were no written agreements with the various entities for boarding prisoners.

#### Recommendation:

#### The Sheriff:

- A.1. Maintain a centralized detail listing of all seized property received including information such as a description, persons involved, current location, case number, and disposition of such property. Additionally, all items should be tagged with a description, case number, and an inventory control number.
  - 2. Make timely and appropriate dispositions of seized property.
- B.1. Maintain a log of amounts billed to the various entities for board of prisoners. In addition, an independent reconciliation of the Sheriff's billing records and the payments received by the County Treasurer should be performed.
  - 2. Obtain written agreements for boarding prisoners from the various entities.

#### Status:

- A. Not implemented. See MAR finding number 11.
- B. Not implemented. Until April 2001, a reconciliation between the Sheriff's billing records and payments received was performed; however, it was discontinued after that time. Effective April 2002 the county no longer boards prisoners for other entities. However, a new jail is currently under construction and the county plans to board prisoners for other entities when construction is complete. Although not repeated in the current MAR, an independent reconciliation of the Sheriff's billing records and payments received by the County Treasurer should be performed when the county resumes boarding prisoners for other entities.

#### 6. Public Administrator

- A. The Public Administrator paid attorneys from the funds of the various estates to provide various services, including the filing of all of her annual settlements. Several attorneys did not file invoices to support their requests for fees.
- B. Real estate owned by the various estate/wards was not accounted for on the settlements.
- C. Some annual settlements were not filed timely.

#### Recommendation:

The Public Administrator:

- A. Obtain supporting documentation for all disbursements made on behalf of the estates.
- B. List any real estate as assets on the settlements.
- C. File annual settlements on a timely basis.

#### Status:

#### A&C. Implemented.

B. Not implemented. Although not repeated in the current MAR, our recommendation remains as stated above.

STATISTICAL SECTION

History, Organization, and Statistical Information

## HARRISON COUNTY, MISSOURI HISTORY, ORGANIZATION, AND STATISTICAL INFORMATION

Organized in 1845, the county of Harrison was named after Albert G. Harrison, a member of the U.S. Congress. Harrison County is a township-organized, third-class county and is part of the 3rd Judicial Circuit. The county seat is Bethany.

Harrison County's government is composed of a three-member county commission and separate elected officials performing various tasks. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to judicial courts, law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other other records important to the county's citizens.

The county's population was 9,890 in 1980 and 8,850 in 2000. The following chart shows the county's change in assessed valuation since 1980:

	 Year Ended December 31,					
	2002	2001	2000	1999	1985*	1980**
	 (in millions)					
Real estate	\$ 50.4	49.9	48.9	48.1	48.3	26.9
Personal property	23.1	22.7	22.3	19.6	14.9	10.1
Railroad and utilities	 6.0	7.0	7.9	7.8	3.6	4.5
Total	\$ 79.5	79.6	79.1	75.5	66.8	41.5

<sup>\*</sup> First year of statewide reassessment.

Harrison County's property tax rates per \$100 of assessed valuations were as follows:

		Year Ended December 31,				
		2002	2001	2000	1999	
General Revenue Fund	\$	.3573	.3529	.3523	.3500	
Health Center Fund		.1400	.1400	.1400	.1400	

<sup>\*\*</sup> Prior to 1985, separate assessments were made for merchants' and manufacturers' property. These amounts are included in real estate.

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on September 1 and payable by December 31. Taxes paid after December 31 are subject to penalties. The county and townships bill and collects property taxes for itself and most other local governments. Taxes collected were distributed as follows:

	Year Ended February 28 (29),				
	\$ 2003	2002	2001	2000	
State of Missouri	 24,145	24,291	24,226	23,341	
General Revenue Fund	289,848	288,398	287,903	275,632	
Assessment Fund	50,438	50,604	49,367	47,426	
Health Center Fund	110,514	111,267	111,091	106,910	
School districts	3,115,643	3,077,187	3,014,676	2,923,783	
Overplus Fund	1,988	0	152	0	
Fire Protection districts	115,719	115,545	91,251	84,322	
Townships	564,687	570,459	557,172	534,433	
Ambulance districts	264,077	266,672	266,757	256,479	
Hospital district	365,559	367,937	374,758	367,575	
Watershed districts	50,513	50,163	48,255	46,920	
City Tax Increment	5,399	0	26,530	21,110

Ex Officio Recorder of Deeds			. , ,	-, ,	, - <del>-</del>
Thomas R. Alley, Associate Circuit Judge		96,000	96,000	97,382	87,235

The county entered into a lease purchase agreement with United Missouri Bank on March 1, 2002. The terms of the agreement call for the county to lease the Crestview Nursing Home to United Missouri Bank, and for the bank to lease purchase the Crestview Nursing Home back to the county with lease payments equal to the amount due to retire the indebtedness. Certificates of Participation totaling \$3,870,000 were issued by United Missouri Trust Bank on behalf of the county and the proceeds of those certificates were used to construct an addition to the Crestview Nursing Home and to refund the outstanding Series 1989 and Series 1996 bonds which were used for building additions and improvements. The lease is scheduled to be paid off in the year 2022. The remaining principal and interest due on the lease at December 31, 2002, was \$3,870,000 and \$2,763,094, respectively. The Certificates of Participation are anticipated to be paid with the revenue generated from the operation of the nursing home.

The county entered a lease purchase agreement with Municipal Financal Group (MFG) for the county jail. The terms of the agreement call for the county to lease the real estate to MFG which will construct the jail and then lease purchase the jail to the county with lease payments equal to the amount due to retire the indebtedness. The lease is scheduled to be paid off in the year 2022. The remaining principal and interest due on the lease at December 31, 2002, was \$1,656,000 and \$1,115,459, respectively. The lease will be paid with proceeds from the one-half cent law enforcement sales tax which took effect on October 1, 2002.
